Re: SWEDISH CONSULATE AT SAN FRANCISCO
ESPIONAGE (SW)

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 290 to 297, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish government at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers - .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

N. J. L. PIEPER

MEMORANDUM FOR MR. TRACY

RE: SWEDISH DIPLOMATIC GROUP

This is to represent a summary of the cases reported on during the dates of October 30, 1942 through November 30, 1942 in connection with the above-entitled case.

There were received for examination in the Laboratory during the above dates 443 radio and cable intercepts from Censorship in New York and the Federal Communications Commission. The messages were transmitted between the following points: Cabinet Stockholm; Swedel, New York; Svensk, Washington; Legation Suecia Havana; Legasueca, Mexico; Legation Suede, Rio de Janeiro; Swedish Consul General, Montreal.

The messages, bearing Laboratory numbers ranging from 90776 through 100272, are characteristic of the Swedish Diplomatic Group inasmuch as the messages are transmitted in five-letter groups, contain a preamble in the form of a digit group which appears to be the serial number of the message, and the first and last five-letter groups are identical. It is believed that these messages are enciphered by a machine and as the necessary machine is not available in the Laboratory, no decipherments were effected. However, continued efforts are being made to effect a solution in connection with the above-entitled case and in the event of any future developments your office will be advised.

The original intercepts are being retained in the Laboratory's Code and Cipher File.

Respectfully,

E. P. Coffey

STRICTLY ~~CONFIDENTIAL~~
BY SPECIAL MESSENGER

Dear General Strong:

You will recall our telephone conversation on November 13, 1942, at which time we discussed the matter of certain code books and enciphering and deciphering tables reportedly in use at the present time by Swedish, Spanish, and French diplomatic missions in this hemisphere. Such codes and enciphering and deciphering tables have been furnished to the Military Intelligence Service by this Bureau on several occasions.

At the Interdepartmental Intelligence Conference held in the Office of Rear Admiral H. C. Train of the Office of Naval Intelligence on August 12, 1942, Mr. E. A. Tamm of this Bureau delivered to Brigadier General Hayes A. Kroner and to Rear Admiral Train photographic copies of six code books and cipher tapes which were being used by the Spanish Embassy in this country, Spanish diplomatic missions in South America, and the Spanish Government in Madrid, Spain.

There are set out hereinafter certain other codes and enciphering and deciphering tables which have been furnished to the Military Intelligence Service by letter:

(1) Under date of October 28, 1942, a letter was dispatched to you transmitting one photostatic copy of the new cipher strips or tapes which reportedly were to be used with the Spanish Naval codes.

(2) By letter dated November 4, 1942, to Rear Admiral H. C. Train of the Office of Naval Intelligence, a copy of which was sent to Brigadier General Hayes A. Kroner, there was transmitted to the Military Intelligence Service one photostatic copy of certain enciphering and deciphering tables, which were reported to be the French Naval code.

(3) By letter dated November 13, 1942, to Rear Admiral H. C. Train of the Office of Naval Intelligence, with a copy to Brigadier General Hayes A. Kroner, there was transmitted to the Military Intelligence Service one photostatic copy of certain enciphering and deciphering tables and code books, which were reported to be a part of the French Naval code.

(4) By letter dated November 13, 1942, to Rear Admiral H. C. Train of the Office of Naval Intelligence, a copy of which was directed to Brigadier General Hayes A. Kroner, there were transmitted certain photographs, which reportedly contained instructions for the use of the Swedish encipherment system and a description of the operation of the Hagelin Cryptographer Cipher Machine which is used by the Swedish Legation in this country.

For your further information, certain photographs of the Naval, diplomatic, and government codes in use by the French Government in this country were brought to the attention of this Bureau by a confidential and reliable source. Copies of these photographs are presently being made available to the Military Intelligence Service.

Photographs of the Spanish code presently being used by the Spanish Government and agents in Venezuela and other South American countries were recently made available to us. Copies of these photographs are presently being transmitted to the Military Intelligence Service.

It is believed that the above referred to material and other codes and ciphers of the Swedish, French, and Spanish Governments, which come to the attention of this Bureau, will very materially aid the Military Intelligence Service, the Office of Naval Intelligence, and the Federal Bureau of Investigation in keeping abreast of the activities of the agents of those countries operating in this hemisphere.

You may be assured that any further information received concerning the codes presently in use by those countries, which is received by this Bureau, will be transmitted to the Military Intelligence Service.

Sincerely yours,

John Edgar Hoover

Dear Admiral Train:

As of interest to you and for your possible aid in keeping abreast of the activities of the Swedish agents in this country, there is transmitted herewith one copy of certain photographs which were made available to this Bureau by a confidential and reliable source. These photographs reportedly contain instructions for the use of the Swedish encipherment system and a description of the operation of the Hagelin Cryptographer Cipher Machine, which is used by that Legation.

The material written in the Swedish language has as yet not been translated because of the short period of time that it has been in our possession; neither have we had an opportunity to make a detailed description of these photographs. However, in view of the urgency of placing them at your disposal, they are being transmitted herewith without a table of contents.

You may be assured that any further information received concerning this or other like material, or the use to which it is put by the Swedish Legation, will be made available to you immediately.

Dear General Watson:

It will be of interest to the President and you to know that a confidential and reliable source has made available to this Bureau copies of certain documents and photographs of apparatus believed to be used by the Swedish Legation for the preparation of their code messages. It was reported that this material contains instructions for the use of the Swedish encipherment system and a description of the operation of the Hagelin Cryptographer Cipher Machine, which is used by that Legation.

It is believed that this material will be of great assistance to this Bureau in determining whether the representatives of the Swedish Legation, or other agents of the Swedish Government, are engaging in espionage or other subversive activities.

Copies of these documents are being made available to Rear Admiral H. C. Train, Director, Office of Naval Intelligence, Navy Department, and Brigadier General Hayes A. Kroner, General Staff, Chief, Military Intelligence Service, War Department.

You may be assured that any further information received concerning this matter, which would be of interest to the President and you, will be brought to your attention immediately.

MEMORANDUM FOR MR. TRACY

Re: SWEDISH DIPLOMATIC GROUP.

This is to represent a summary of the cases reported on during the dates of September 2, 1942 through October 29, 1942 in connection with the above-entitled case.

There were received for examination in the Laboratory during the above dates eight hundred and nine radio intercepts from Censorship in New York and the Federal Communications Commission. The messages were transmitted between the following points: Cabinet Stockholm; Swedel, New York; Svensk, Washington; Legation Suecia Havana; Legasueca Mexico; Legation Suecia Rio de Janeiro; and Swedish Consul General Montreal.

The messages, bearing Laboratory numbers ranging from 48921 through 90490, are characteristic of the Swedish Diplomatic Code inasmuch as the messages are transmitted in five-letter groups, contain a preamble in the form of a digit group which appears to be the serial number of the message, and the first and last five-letter groups are identical. It is believed that these messages are enciphered in Swedish Diplomatic Code and as the necessary code books are not available in the Laboratory no decodes were effected. However, continued efforts are being made to effect a solution in connection with the above-entitled case and in the event of any future developments your office will be advised.

The original intercepts are being retained in the Laboratory's code and cipher file.

Respectfully,

E. C. Coffey

MEMORANDUM FOR MR. TRACY

RE: SWEDISH DIPLOMATIC GROUP CODE

On November 7, 1942, the Washington Field Office furnished the Laboratory with several rolls of film containing reproductions of documents and apparatus believed to be used by the Swedish Embassy for the preparation of their code messages. A preliminary examination of the negatives indicates that contained in this material are instructions for the use of the encipherment system. Also found therein was a description of the operation of the Hagelin Cryptographer Cipher Machine of which photos were also made. In addition to this there are a number of tables which apparently are used to determine the keys for use with the cipher mabhine.

Likewise photographed were a number of miscellaneous documents apparently concerning military topics which were in both English and Swedish. It is also noted that the majority of this material is in Swedish and therefore a complete translation will be necessary before a more complete examination and evaluation can be made.

Respectfully,

E. P. Coffey

Re: German Diplomatic Group.

Dear Sir:

Reference is made to your letter of September 21, 1942 under the caption "GERMAN DIPLOMATIC GROUP" with which radio intercepts 443 through 453 were transmitted to the Bureau for examination in the laboratory and in which it was requested that you be furnished photostatic copies of these intercepts. Reference is also made to your letter of October 20, 1942 under the caption "SWEDISH DIPLOMATIC GROUP" with which you transmitted radio intercepts 460 and 461 to the Bureau for examination in the laboratory and in which you requested that your office be furnished photostatic copies of same.

All of the intercept material mentioned above has been appropriately examined in the laboratory and the laboratory's findings have been made available to the Bureau by memorandum. Inasmuch as the cryptographic staff assigned to your office is not concerned with any code or cipher material other than Japanese it is not considered necessary to furnish you with the results of these examinations.

With reference to your request for photostatic copies, these are not being sent for the reason mentioned in the preceding paragraph. None of the messages appearing on the intercepts is related in any way to Japanese material.

As a policy to be followed in the future, it is suggested that all non-Japanese code and cipher material received in your office for examination be forwarded to the Technical Laboratory without requesting that your office be furnished photostatic copies unless by reason of some particular circumstance your cryptographers have a real interest in same. The non-Japanese material forwarded to the Technical Laboratory from your office will be appropriately examined and the Bureau advised of the results of such examinations in the usual way. These results will not be furnished your office unless, again because of some peculiar circumstance, the laboratory's findings contain something of interest to your cryptographic staff or to your office.

Very truly yours,

Attention: Technical Laboratory Re: SWEDISH DIPLOMATIC GROUP
Bureau File #65-41041

Dear Sir:

The intercepts which are listed below were received from the Bureau and from the Portland Station of the Federal Communications Commission for appropriate examination in this office.

No.		Monitor	Date	Freq. in Kcs.
328		Portland	5-28-42	15840
329		Portland	6-1-42	14970
460	(49267)	Fairbanks	7-17-42	13880
461	(49235)	Fairbanks	7-18-42	13880

Intercept 328 is a transmission from radio station JAJ in Osaka to Bangkok on a frequency of 15840 Kcs. This intercept contains an English plain text message to the Swedish Consulate General in Bangkok from BAGGE in Tokyo in regard to the evacuation of British, Dutch and Belgian Nationals. Intercept 329 is a transmission from radio station JNS4 in Osaka to radio station FZR6 in Saigon on a frequency of 14970 Kcs. This intercept contains a portion of a French plain text message, signed BAGGE, in regard to arrangements for the passage to Tokyo of an individual named SVENSSON.

Intercepts 460 and 461 are copies of traffic emanating from station JNB in Osaka to radio station SDQ in Kotala on a frequency of 13880 Kcs. The operator also indicates that in Intercept 460 JNB was transmitting to YAK in Kaboul.

These intercepts contain portions of two five-letter group messages in Swedish Government Code directed to "Cabinet

re: Swedish Diplomatic Cipher

Through the efforts of the Washington Field Office Mr. Napier of the Cryptographic Section of the Laboratory was able to examine the presently used ciphering machine of the Swedish Embassy. He examined the key settings and made photographs thereof. This is a Hagelin cryptographer. We do not have such a cipher machine to work with. They are made in Sweden and we have not in the past been able to get deliveries over here. It is my understanding that the Army has at least one in their Cryptographic Section. Furthermore the Army is supposedly charged by the State Department with reading diplomatic traffic.

It is quite likely therefore that if the Army were furnished these key settings and the date obtained they would be able to read the traffic from the Embassy if they are not already able to do so.

These data are submitted for the Bureau's consideration as to whether the key settings should be explained to the Army authorities.

MEMORANDUM FOR MR. TRACY

Re: Swedish Diplomatic Group

Reference is made to 32 sheets of radio intercepts received in the laboratory from the Federal Communications Commission and Censorship in New York under the dates of August 27, 1942 and August 28, 1942 for an examination in connection with the above-entitled case.

Intercept 60181 contained a message in five-letter groups, addressed to "Nitton Stockholm", which was decoded by means of the Peterson International Code, Third Edition, and is set forth as follows:

"567 EXTEND TIME LIMIT CREDIT NUMBER 3686 NOTIFY
BENEFICIARY STENMAN OCTOBER 31ST OTHER CONDITIONS
UNCHANGED BANCO de la NACION ARGENTINA".

The rest of the messages are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are transmitted in five-letter groups, contain a preamble in the form of a digit group which appears to be the serial number of the message, and the first and last five-letter groups are identical. It is believed that these messages are enciphered in Swedish Diplomatic Code and as the necessary code books are not available in the laboratory no decodes were effected. However, continued efforts are being made to effect a solution in connection with the above-entitled case and in the event of any future developments your office will be advised.

In order to recognize the addresses to which these messages were sent they will be listed as follows:

Miss Gandy

Mr. [illegible]

With photostatic copies of letters from U.S. A.F.M. #189, dated June 16, 25 and 30, 1942 at Lima, Peru, the Laboratory received fourteen sheets of radio intercepts which contain messages pertinent to the above-entitled group, the Spanish Diplomatic Group, 65-9295, the Swedish Diplomatic Group, 65-41041 and the Miscellaneous Group, 65-6654.

These messages contained in the above-mentioned intercepts which pertain to the French Government Group were examined, but no decodes were effected with the available material in the Laboratory. In connection with a study which is being made of the French Government Code, the Laboratory is able to supply decodes for several groups scattered throughout the literal messages, but in view of the fact that no coherent meanings can be obtained therefrom, these partial decodes are not being offered at this time.

Six of the messages contained in the above-mentioned intercepts are representative of traffic transmitted between various departments of the Spanish Government. The decodes of these messages have not been effected as yet, although they are presently being made the subject of intensive study along with other messages representing this type of traffic.

Four messages contained in the afore-mentioned intercepts represent traffic transmitted between Lega Queca, Lima, Peru and Stockholm, Sweden. Inasmuch as the Swedish code is not available in the Laboratory, these messages were not decoded.

Three messages contained in the above intercepts were transmitted in five-letter groups and represent traffic transmitted between the Vatican City and various representatives of the Papal State. In view of the fact that the Vatican's code is not available in the Laboratory, no attempt has been made to decode these messages.

The photostatic copies of the intercepts mentioned above are being retained in the French Government Group of the Laboratory's Code and Cipher File for the purpose of further study.

Copies of this memorandum are being placed in the Spanish Diplomatic File, 65-9295, the Swedish Diplomatic File, 65-41041 and the Miscellaneous File, 65-6654.

RE: SWEDISH DIPLOMATIC GROUP

Reference is made to 21 sheets of cable intercepts received in the Laboratory under the date of August 31, 1942 from Censorship in New York.

The messages contained in these cables are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group which appears to be the serial number of the message, the first and last five-letter groups are identical, and there is a lack of repetition. As the necessary code books are not available in the Laboratory no decodes were effected. However, continued study is being made in connection with the above-entitled case and in the event of any future developments your office will be advised.

In order to recognize the addresses to which these cables were sent they will be listed as follows:

MEMORANDUM FOR MR. TRACY

Re: SWEDISH DIPLOMATIC GROUP.

Reference is made to one hundred and fifty-two sheets of intercepts received in the Laboratory under the dates of August 24, 1942 through August 27, 1942 from the Federal Communications Commission and Censorship at New York.

Intercept 58447 contains a list of articles which is believed to be of no cryptographic significance.

Intercept 59951 contains a message in five-digit groups and is believed to be another form of the Swedish Diplomatic Code.

All the rest of the messages are similar to previous messages received in connection with the above-entitled case. The messages bear the characteristics of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group which appears to be the serial number of the message and the first and last five-letter groups are identical. As the necessary code books are not available in the Laboratory no decodes were effected. However, a continuous study is being made of this traffic and in the event of any future development your office will be advised.

The cable addresses are listed below by intercept numbers for convenience:

MEMORANDUM FOR MR. TRACY

RE: Swedish Diplomatic Group

Reference is made to one hundred forty-five sheets of Swedish Diplomatic intercepts received in the Laboratory under the dates of August 17 through August 22, 1942. These intercepts were forwarded to the Laboratory from Censorship in New York and the Federal Communications Commission for examination in connection with the above entitled case.

Intercept 56665 contained the names and positions of ships of the Swedish government.

Intercept 56667 contained a list of articles followed by a four digit group which is preceded by the letter "G".

Cable intercept 57389 contained what is believed to be another form of Swedish Diplomatic Code in the form of five digit groups.

RECORDED 65-41041-39
17 SEP 3 1942

The messages contained in all the rest of the cables and intercepts are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group, first and last five letter groups are identical, and there is a lack of repetition. As the necessary code books are not available in the Laboratory no decodes were effected. A further study of these messages is being made in the Laboratory and in the event of any future developments your office will be advised.

The cable addresses are listed below by intercept numbers for convenience.

Reference is made to two sheets of Swedish Government intercepts designated in the Laboratory as 55233 which were received from the Federal Communications Commission under the date of August 19, 1942. These intercepts contained four messages addressed to Cabinet Stockholm . Three of the messages are characteristic of the Swedish Diplomatic Code inasmuch as the messages are initiated by a digit group and the first and last five letter groups are identical. Inasmuch as the necessary code books are not available for these particular messages no decodes were effected.

The fourth message contained in these intercepts was decoded by means of Peterson International Code Third Edition. This message was sent from Station JNB located in Osaka, Japan and was addressed to Stockholm Enshilda Bank, Stockholm. The message is as follows:

Re: SWEDISH ACTIVITIES

Internal Security

Dear Sir:

Enclosed are 5 boxes containing reels of DEVELOPED 35 mm. Kini-Pan film. These boxes are numbered 3,4,5,6 & 7. Altogether, the rolls of film contain reproductions of two codes. Roll No. 3 contains reproductions of a code which was supplied to this office by Confidential Source, who advised that it was obtained aboard the MS GCONAWARRA, which docked at San Francisco on 8/11/42. This source advised that the code on roll No. 3 is supplied to all vessels of the Swedish Merchant Marine by the Swedish Navy; that they always are given to the Master of each such vessel to maintain in the most secure position of the ship and if the ship is stopped or intercepted by the enemy the code is to be destroyed. The Source advised that this code was maintained in the safe on board the ship and that the only other articles in it were some revolvers and a quantity of ammunition. The source advised that it is used by the Navy and the Merchant Marine in connection with Swedish Naval Convoy maneuvers in Swedish waters.

With respect to the code which is contained on rolls 4,5,6 and 7, the Source advised that it was maintained in the Master's desk on board ship and that it is a code, the copy of which is maintained by the Swedish Steamship Company in Sweden, a copy of which is placed on board every ship of that company. It is used for communication between the ships at sea and the company. RECORDED 65-4704-37X
INDEXED 147

With respect to both of these codes, it is requested that the codes be reproduced by printing from these negatives immediately and that Supervisor STRICKLAND of the Bureau be advised as soon as they are printed. This request is for the reason that we have forwarded today by Air Mail Special Delivery some papers that were found in the

MEMORANDUM FOR MR. TRACY

Re: SWEDISH DIPLOMATIC RADIO GROUP.

Reference is made to thirty-one sheets of Swedish Diplomatic radio intercepts received in the Laboratory on July 28, 1942 from Censorship in New York.

These intercepts contain messages transmitted in five-letter groups except intercept 50217 which was transmitted in five-digit groups.

The intercepts with cable addresses are listed below as follows:

Svensk Washington - 50223, 50225, 50230.

Cabinet Stockholm - 50224, 50217, 50236, 50237, 50242 - 50244, 50246, 49593, 50218 - 50222, 50226 - 50228, 50231 - 50234.

Swedel New York - 50239, 50241, 50245, 50247, 50229, 50235.

Swedish Consulate General Montreal - 50240.

The messages were examined in the Laboratory and found to be Swedish Diplomatic messages inasmuch as the first and last groups of the messages were identical and also, the messageswere preceded by a digit group. The digit group appears to be the serial number of the message to the particular address with reference to a certain subject. No decode or decipherment of the messages has been effected as yet, but further study of this group is being made in the Laboratory.

The original intercepts are being retained in the Laboratory's code and cipher file.

MEMORANDUM FOR MR. TRACY

RE: Swedish Diplomatic Group

Reference is made to Swedish Government Cable Intercepts designated in the Laboratory as 45660 through 45675 which were sent and received by RCAC and forwarded to the Bureau by Censorship in New York and 45685 which was received from the Federal Communications Commission. These intercepts were received in the Laboratory under the date of July 13, 1942 and consist of seventeen sheets.

In order to recognize the addresses to which the cables were sent they will be listed as follows:

Cabinet Stockholm - Intercept 45660, 45662, 45664, 45668, 45671, 45672, 45675, 45685.

Svensk Washington - Intercept 45661, 45663, 45666, 45667, 45669, 45670, 45673.

Swedel, N. Y. — Intercept 45665 and 45674.

The message contained on intercept 45685 was transmitted by station IQF located in Monte Grande, Argentina and was addressed to Cabinet, Stockholm.

The messages contained in these cables are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group and the first and last five letter groups are identical. From previous study it is believed that those messages are enciphered in Swedish Diplomatic Code and as the necessary code books are not available in the Laboratory no decode has been effected.

The original intercepts are being retained in the Laboratory's Code and Cipher Files.

Reference is made to Swedish Government cable intercepts designated in the laboratory as 44909 through 44947 and 44593 which were sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the laboratory under dates of July 10 and 11, 1942 and consist of 40 sheets.

The cable intercept numbers and the addresses to which the cables were sent are listed as follows:

Swedel, New York, 44909, 44914, 44924 through 44926, 44927, 44931, 44932, 44941, 44943 and 44944.

Cabinet Stockholm, 44910, through 44913, 44915 through 44919, 44921 through 44923, 44928 through 44930, 44933 through 44937, 44939, 44940 and 44945.

Svensk, Washington, 44920, 44938, 44942 and 44947.

Swedish Consul General Montreal, 44946.

Intercept #44916 contains what appears to be a list of cargo items that had been cleared by the Swedish Cargo Clearing Committee.

Intercept #44593 contains a list of what appears to be telegraphic serial numbers.

All other messages contained in these cables are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group and the first and last five-letter groups are identical. From previous study it is believed that these messages are enciphered in Swedish Diplomatic Code and as the necessary code books are not available in the laboratory no decodes have been effected.

The original cable intercepts are being transmitted herewith to the Bureau's files. Copies are being retained in the laboratory's code and cipher file.

Re: SWEDISH MATTERS

Dear Sir:

Reference is made to your letter dated June 10, 1942 for the attention of Assistant Director S. J. Tracy, wherein you enclosed messages 1 to 109 inclusive, which are to and from the Swedish Consul General in San Francisco requesting that they be returned to the San Francisco Field Office in the event it was determined that they are of no value at the present time.

Pursuant to your request these messages are being returned to be kept in the files of your office.

Re: SWEDISH MATTERS

Attention: Asst. Director S. J. Tracy

Dear Sir: PERSONAL AND ~~CONFIDENTIAL~~

This will refer to several other letters directed to your attention by me today regarding certain diplomatic messages supplied to this office by a confidential source.

I am enclosing herewith messages 1 to 109 inclusive which are to and from the Swedish Consul General in San Francisco, Calif. All of these messages are in plain language and in English and appear to refer entirely to routine matters handled by the Consular staff in this city, however, they are being made available to the Bureau. In the event the Bureau desires to examine them with reference to whatever other material is available there regarding Swedish nationals, the messages may be retained in the Bureau files for whatever purpose they may serve. In the event it is determined they are of no value presently, and cannot reasonably be expected to be of value to the Bureau in the future, they should be returned to the San Francisco Field Office rather than destroyed.

Very truly yours,

Re: Swedish Diplomatic Code

Dear Sir:

Reference is made to your letter dated June 23, 1942 with which you transmitted radio intercepts 21314, your numbers 195 and 196, for cryptographic examination in the laboratory.

The messages are characteristic of the Swedish Diplomatic Code inasmuch as there is a lack of repetition and the frequency distribution is similar to Swedish Diplomatic Code.

Since the messages contained in these intercepts are believed to be in enciphered Swedish Diplomatic Code and the necessary code books are not available in the laboratory, no decode was effected.

As requested, photostatic copies of intercepts 195 and 196 are being transmitted herewith, the original intercepts having been retained in the laboratory's code and cipher file.

Re: SWEDISH DIPLOMATIC GROUP
Bureau file 65-41041

Dear Sir:

The intercepts which are listed below were received in this office for appropriate examination during the period from May 3 to May 13, 1942:

	MONITOR	DATE	FREQ. IN KCS.
193	Portland	5-6-42	15840
194	Portland	5-12-42	14970
195	Fairbanks	4-21-42	13880
196 (21314)	Fairbanks	4-25-42	13880

Intercepts 193 and 194 were received from the Portland Monitoring Station of the Federal Communications Commission on May 7 and May 13, 1942. Intercepts 195 and 196 were received from the Bureau on May 3 and May 9, 1942.

Intercept 193 is a transmission from JAJ in Osaka to HSP in Bangkok on an assigned frequency of 15840 Kcs. This intercept contains service traffic and one message in Swedish plain text directed to the Swedish Consulate General in Bangkok. A translation of this message is set forth on the attached sheet.

Intercept 194 is a transmission from Radio Station JNS-4 in Osaka on a frequency of 14970 Kcs. This transmission was directed to a station whose call was not heard, but which is evidently located in Saigon. Intercept 194 contains one English plain text message to the Swedish Consulate in Bangkok from BAGGE regarding the financial independence of some unnamed person.

Intercept 195 is a transmission from JNB in Osaka to FYB in Paris and FYU in Croix d'Hins on a frequency of 13880 Kcs. This intercept contains a partial message of five letter Swedish Diplomatic Code groups signed "BAGGE".

MEMORANDUM FOR MR. TRACY

Re: Swedish Diplomatic Group

Reference is made to Swedish Government cable intercepts designated in the laboratory as 36765 through 36796 which were sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the laboratory under the date of June 13, 1942 and consist of 33 sheets.

In order to recognize the addresses to which the cables were sent they will be listed as follows:

STOCKHOLM, WASHINGTON - intercepts 36765, 36766, 36770, 36773, 36784, 36788 and 36794.

CABINET STOCKHOLM - intercepts 36767, through 36769, 36771, 36772, 36774, 36776, 36777, 36781, 36782, 36783, 36787, 36789, 36790, 36791 and 36795.

STOCKHOLM, NEW YORK - intercepts 36775, 36778, 36785, 36786, 36792, 36793 and 36796.

SWEDISH CONSULATE GENERAL MONTREAL - intercept 36779.

LEGASUEA, MEXICO - intercept 36780.

The messages contained in these cables are characteristic of the Swedish Diplomatic code, inasmuch as the messages are initiated by a digit group and the first and last five-letter groups are identical. From previous study it is believed that these messages are enciphered in Swedish Diplomatic code and as the necessary code books are not available in the laboratory no decodes have been effected.

The original cable intercepts are being transmitted herewith to the Bureau's files. Copies are being retained in the laboratory's code and cipher file.

Respectfully,

E. P. Coffey

Re: Swedish Diplomatic Group

Reference is made to the Swedish Government cable intercepts designated in the Laboratory as 33990 through 33994, 33996, 33998 through 34012 and 34266 through 34271 and sent and received by RCAC and forwarded to the Bureau by Censorship in New York, and 31741 received from the Federal Communications Commission. These intercepts were received in the Laboratory under the dates of June 3, 1942 through June 6, 1942 and consist of 27 sheets.

These cables are characteristic of the Swedish Diplomatic Group, and are believed from previous study to be enciphered Swedish Diplomatic Code. As the necessary code books are not available in the Laboratory no decodes were effected.

In order to recognize the address to which the various cables were sent they will be listed as follows:

Swedel New York - Intercepts #33990 and 34005.
Cabinet Stockholm - Intercepts #33991 through 33994, 33996, 33998, 33999, 34002 through 34004, 34006 through 34012, 31741, 34266, 34268 through 34271.
Svensk, Washington - Intercepts #34000, 34001 and 34267.

The original cable intercepts are being transmitted herewith to the Bureau's files. Copies are being retained in the Laboratory's code and cipher file.

Re: SWEDISH DIPLOMATIC GROUP.

Reference is made to Swedish Government cable intercepts designated in the Laboratory as 33514 through 33531 sent and received by RCAC and forwarded to the Bureau by Censorship at New York, and intercept 29461 forwarded by the Federal Communications Commission. These intercepts were received in the Laboratory under the dates of June 9, 1942 and May 25, 1942 respectively and consist of twenty-three sheets.

In order to recognize the cables and their addresses they will be listed as follows:

Cabinet Stockholm - intercept numbers 33514, 33516 through 33528, and 33531.

Svensk, Washington - intercept numbers 33515 and 33530.

Swedel, New York - intercept number 33529.

Legation Suede Sofia - intercept number 29461.

Intercept number 33516 was found to contain what is believed to be a list of materials.

Intercept number 33530 contains the name and location of ships of the Swedish Government.

All the other messages contained in these cables were found to be initiated by a digit group, a lack of repetition of letters or groups, and the first and last five-letter groups in the message are identical. Since the messages contained in these cables are believed, from previous study to be in enciphered Diplomatic Code, and as the necessary code books are not available in the Laboratory, no decodes were effected.

Reference is made to Swedish Government Cable intercepts designated in the Laboratory as 29203, 32410, and 33162 through 33195 sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the Laboratory under the date of June 7, 1942 and consist of thirty-six sheets.

In order to recognize the cables and their addresses they will be listed as follows:

Cabinet Stockholm - intercepts numbered 29203, 33163, 33167 through 33173, 33178 through 33180, 33182, 33185, 33189 through 33191, and 33193.

Swedel, New York - intercepts numbered 32410, 33162, 33165, 33166, 33176, 33181, 33183, 33184, 33187 and 33192.

Svensk, Washington - intercepts numbered 33164, 33174, 33175, 33177, 33186 and 33195.

Re: Swedish Diplomatic Group

Reference is made to Swedish Government Cable intercepts designated in the laboratory as 32517 through 32529 and 32531 through 32549 sent and received by WCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the laboratory under the date of June 5, 1942 and consist of 32 sheets.

In order to recognize the cables and their addresses they will be listed as follows:

Svensk, Washington, intercepts numbered 32517 through 32519, 32526, 32529, 32531, 32539, 32543 and 32546.

Cabinet Stockholm, intercepts numbered 32520 through 32523, 32525, 32527, 32528, 32540, 32544, 32545 and 32547.

Swedel, New York, intercepts numbered 32524, 32527, 32532 through 32537, 32542 and 32549.

Legation Suede Rio de Janeiro, intercepts numbered 32538, and 32548.

Swedish Consul General Montreal, intercept number 32541.

It is noted that cable intercept 32529 consists of a service message and intercept number 32522 appears to be a listing of some particular item or items by the means of a four-digit group preceded by a letter.

All the other messages contained in these cables are characteristic of the Swedish Diplomatic code, inasmuch as the messages are initiated by a digit group, the first and last five-letter groups are identical and there is a lack of repetition. Since the messages contained in these cables are believed, from previous study, to be in enciphered Swedish Diplomatic code and as the necessary code books are not available in the laboratory, no decodes were effected.

Reference is made to Swedish Government cable intercepts designated in the Laboratory as 32093 through 32138 and 32140 through 32160 and sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the Laboratory under the date of June 4, 1942 and consist of sixty-seven sheets.

Cable intercept number 32100 is addressed to Cabinet Stockholm and appears to be another form of Swedish Code in the form of four and five-digit groups.

All the rest of the messages contained in these cables are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group, the first and last five-letter groups are identical and there is a lack of repetition. Since the messages contained in these cables are believed, from previous study, to be in enciphered Swedish Diplomatic Code and the necessary code books are not available in the Laboratory, no decodes were effected.

MEMORANDUM FOR MR. TRACY

Re: SWEDISH DIPLOMATIC.

Reference is made to Swedish Government Cable intercepts designated in the Laboratory as 29949 through 29966, 29968 through 29969, 30330 through 30333, sent and received by R.C.A.C. and forwarded to the Bureau by Censorship in New York. These intercepts were received in the Laboratory during the dates of May 5 through May 27, 1942 and consist of fifteen sheets.

Intercept numbers 29945, 29950, 29952, 29953, 29954, 29960, 29961, 29964, and 30333 were addressed to Cabinet Stockholm. Intercept numbers 29951, 29956, 29963, 30330, 30331, and 30332 were addressed to Svensk, Washington. Intercept number 29955 was addressed to Legation Suede, Mexico. Intercept numbers 29957, 29958, 29959, 29962, 29965 through 29969 were addressed to Swedel, New York.

Intercept number 29951 listed the positions of Swedish ships.

The messages contained in these cables are characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group, the first and last five-letter groups are identical and there is a lack of repetition. Since the messages contained in these cables are believed, from previous study, to be enciphered Swedish Diplomatic Code and the necessary code books are not available in the Laboratory, no decodes were effected.

The original cable intercepts are being transmitted herewith for the Bureau's files. Copies are being retained in the Laboratory's code and cipher file.

Respectfully,

E. P. Coffey

MEMORANDUM FOR MR. TRACY

RE: SWEDISH DIPLOMATIC CODE

Reference is made radio intercepts 24621, 24622 and 25190 received in the Laboratory under the date of May 15, 1942 from the Federal Communications Commission which consists of three sheets.

Radio intercept 24621 contains a transmission in five-letter groups from radio station CEA2 located at Santiago Quilicura, Chile addressed to "CABINET STOCKHOLM" and bearing no signature. This transmission is characteristic of the Swedish Diplomatic Code inasmuch as it is initiated by digit group, the first and last five-letter groups are identical and there is a lack of repetition.

Radio intercept 24622 contains a transmission in five-letter groups from the Swedish Government at Stockholm and is addressed to "LEGASUETA, LIMA" and bears the signature "CABINET". This transmission is characteristic of the Swedish Diplomatic Code inasmuch as it is initiated by a digit group, the first and last five-letter groups are identical and there is a lack of repetition.

Radio intercept 25190 contains a transmission in five-letter groups from radio station JNB located at Osaka, Japan to radio station FYB located at Paris, France and bearing the cable address of "CABINET STOCKHOLM". This transmission is characteristic of the Swedish Diplomatic Code inasmuch as it is initiated by a digit group, the first and last five-letter groups are identical and there is a lack of repetition.

The messages contained in the above intercepts are believed to be in enciphered Swedish Diplomatic Code and since the necessary code books are not available in the Laboratory, no decodes were effected.

The original intercepts are being transmitted herewith to the Bureau's files, photostatic copies having been retained in the Laboratory's Code and Cipher File.

MEMORANDUM FOR MR. TRACY

Re: Swedish Diplomatic

Reference is made to Swedish Government cable intercepts designated in the Laboratory as 25691 through 25707, 25710 through 25726, 25895 through 25900 and 25950 through 25966, sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the Laboratory during the dates of May 16, 1942 through May 18, 1942 and consist of fifty-seven sheets.

Listed below are the cable intercepts containing letter and digit groups as indicated, which are all Swedish Government Code as designated by the addresses. The messages contained in these cables are all, with the exception of 25951 and 25966, characteristic of the Swedish Diplomatic Code, inasmuch as the messages are initiated by a digit group, the first and last five-letter groups are identical and there is a lack of repetition. Since the messages contained in these cables are believed, from previous study, to be in enciphered Swedish Diplomatic Code and the necessary code books are not available in the Laboratory, no decodes were effected. Cable 25951 is not characteristic of the Swedish Diplomatic Code, inasmuch as it is not initiated by a digit group and the first and last five-letter groups are not identical. From a frequency distribution consideration however, it gives the appearance of encipherment.

MEMORANDUM FOR MR. TRACY

Re: SWEDISH DIPLOMATIC

Reference is made to radio intercepts 21318 and 22673 received in the Laboratory under the dates of April 30, 1942 and May 5, 1942 respectively from the Federal Communications Commission, which consist of two sheets.

Radio intercept 21318 contains a transmission in five-letter groups from radio station JNB located in Osaka, Japan to radio station FYB located at Paris, France and bearing the cable address of Cabinet, Stockholm. This transmission is characteristic of the Swedish Government Code inasmuch as it is initiated by a digit group and the first and last five-letter groups are identical.

Radio intercept 22673 contains a transmission in five-letter groups from radio station XDY located at Chapultepec Del Distrito Federal, Mexico to radio station WDB, Rocky Point, New York. This message addressed to Cabinet, Stockholm and signed Arfwedson is a Swedish Government message.

The messages contained in the above intercepts are believed to be in enciphered Swedish Diplomatic Code and inasmuch as the necessary code books are not available in the Laboratory, no decodes were effected.

The original intercepts are being transmitted herewith for the Bureau's files. Photostatic copies are being retained in the Laboratory's Code and Cipher File.

Re: Swedish Diplomatic

Reference is made to Swedish Government Cable intercepts, designated in the laboratory as 19713, 23782 through 23785, 23807 through 23811 and 23877, received in the laboratory during the dates of May 5, 1942 through May 10, 1942 from Censorship in New York.

Listed below are the cable intercepts sent and received by RCAC. The messages contained therein, are all Swedish Government messages as indicated by the addresses. The messages are all characteristic of the Swedish Diplomatic Code inasmuch as they contain a similar first and last five-letter group, a digit group at the beginning of the message and a lack of repetition. The Swedish Diplomatic code, from a previous study, is believed to be an enciphered code and inasmuch as the necessary code books are not available in the laboratory no decodes were effected.

MEMORANDUM FOR MR. TRACY

Re: Swedish Diplomatic

Reference is made to Swedish Diplomatic cables designated in the Laboratory as numbers 19312 through 19319, 19321 through 19327, 19335 through 19338, 19341 through 19344, 19346 through 19353, 19358 through 19368, 19370 through 19376, and 21947 through 21957 sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the Laboratory under date of May 4, 1942 and consisted of sixty sheets.

Listed below are all the intercepts which are Swedish Diplomatic code as indicated by the addresses. It is noted in these cables that each one is initiated with a digit group which appears to designate the numerical order of the cable. It is also noted that the first and last five-letter groups are identical and from a study it is also noted that the middle letter in each of these groups, is usually the same for a particular date. The exact significance is not definitely established as yet, however, it appears to be an indicator. From the lack of repetitions and a frequency distribution consideration together with the probable five-letter group indicator, it appears very certain that this is an enciphered message. Since the necessary code books are not available in the Laboratory no decodes were effected.

MEMORANDUM FOR MR. TRACY

Re: Swedish Diplomatic Cables

Reference is made to Swedish Government cables, designated in the Laboratory as 22559 through 22575, which were sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These cables, which consist of seventeen sheets, were received in the Laboratory under date of May 6, 1942.

Listed below are the Swedish Diplomatic cables consisting of letter and digit groups as indicated. It is noted that these cables contain messages characteristic of the Swedish Diplomatic messages, having the first and last five-letter groups identical and being introduced by a digit group. From a frequency distribution consideration, lack of repetitions and a probable indicating first and last five-letter groups, it is believed that these messages are enciphered code. Since the necessary code books are not available in the Laboratory, no decode of these messages was effected.

RE: SWEDISH DIPLOMATIC GROUP

Dear Sir:

Reference is made to your letter dated May 8, 1942 with which you transmitted radio intercept 26649, your number 165, for cryptographic examination in the Laboratory.

Radio intercept 26649 contains a transmission in five-letter groups from radio station JNE located at Osaka, Japan. This message is characteristic of the Swedish Diplomatic Code inasmuch as there is a lack of repetition and its frequency distribution is similar to Swedish Diplomatic Code. It is also noted that this message is signed "BAGGE", as are the Swedish Diplomatic messages emanating from Japan.

Since the message contained in this intercept is believed to be in enciphered Swedish Diplomatic Code and the necessary code books are not available in the Laboratory, no decode was effected.

As requested, the original intercept is being transmitted herewith, a photostatic copy having been retained in the Laboratory's Code and Cipher File.

Very truly yours,

John Edgar Hoover

Bureau file 65-41041

Dear Sir:

On March 16, 1942, Intercept 165 listed below was received in this office for appropriate cryptographic examination from the Portland Monitoring Station of the Federal Communications Commission:

NUMBER	MONITOR	DATE	FREQ. IN KCS.
165	Portland	3-14-42	10160

Intercept 165 is a copy of traffic transmitted by JNE in Osaka to Berlin (Nauen) on a frequency of 10160 Kcs., which is that legitimately assigned to JNE. The portion of the transmission that was copied consists of the end of a message in five letter groups which has been identified as Swedish Diplomatic Code. As a consequence, Intercept 165 is being transmitted herewith for further examination in the Laboratory.

It is requested that upon the completion of the examination, Intercept 165 be returned to this office.

Very truly yours,

J. D. SWENSON

MEMORANDUM FOR Mr. TRACY

Re: Swedish Diplomatic

Reference is made to radio intercept 21688 received in the laboratory from the Federal Communications Commission under date of May 5, 1942 which consists of one sheet.

Radio intercept 21688 contains a transmission in five-letter groups from radio station JNB located at Osaka, Japan to a radio station bearing the call letters SDQ located at Motala, Sweden. This message is characteristic of the Swedish Diplomatic code inasmuch as the first and last five-letter groups are identical, it is initiated with a digit group and there is a lack of repetition. The Swedish Government messages are believed to be an enciphered code. Since the necessary code books are not available in the laboratory no decode was effected.

The original intercept is being transmitted herewith for the Bureau's files. A photostatic copy is being retained in the laboratory's code and cipher file.

Re: ~~British~~ Swedish Diplomatic

Reference is made to Swedish government cables designated in the Laboratory as numbers 21048 through 21087, 19701 through 19705, 19715 through 19717, 19719, 19721 through 19725, 19732, 19733, 19736, 21327 through 21336, 21341 through 21348, 18605 through 18617, 21265, 21266 and 21255 sent and received by RCAC and forwarded to the Bureau by the Censorship in New York. These cables were received in the Laboratory during the dates of April 28, 1942 through May 3, 1942 and consist of 105 sheets.

The cable designated in the Laboratory as 21266 contains a transmission in five-letter groups from Stockholm GHR. ETAT. and is addressed to Citibank New York, and is signed Riksbanken. With the use of Peterson International Code (Third Edition), this message was decoded by Censorship in New York and appears to be a banking report of no particular interest.

Listed below are intercepts containing letter and digit groups as indicated. These intercepts all contain Swedish diplomatic code, as indicated by the addresses. In these transmissions it is noted that each message is initiated with a digit group and the first five-letter group is the same as the last five-letter group. From the lack of repetitions and a frequency distribution consideration these messages appear to be enciphered. As the necessary code books are not available in the Laboratory, no decodes were effected.

Re: Swedish Diplomatic

Reference is made to Swedish Diplomatic cables designated in the Laboratory as numbers 19312 through 19319, 19321 through 19327, 19335 through 19338, 19341 through 19344, 19346 through 19359, 19358 through 19368, 19370 through 19376, and 21947 through 21957 sent and received by RCAC and forwarded to the Bureau by Censorship in New York. These intercepts were received in the Laboratory under date of May 4, 1942 and consisted of sixty sheets.

Listed below are all the intercepts which are Swedish Diplomatic code as indicated by the addresses. It is noted in these cables that each one is initiated with a digit group which appears to designate the numerical order of the cable. It is also noted that the first and last five-letter groups are identical and from a study it is also noted that the middle letter in each of these groups, is usually the same for a particular date. The exact significance is not definitely established as yet, however, it appears to be an indicator. From the lack of repetitions and a frequency distribution consideration together with the probable five-letter group indicator, it appears very certain that this is an enciphered message. Since the necessary code books are not available in the Laboratory no decodes were effected.

MEMORANDUM FOR MR. TRACY

Re: Swedish Diplomatic Code

Reference is made to radio intercepts #19311 and #20279 received in the Laboratory under dates of April 22, 1942 and May 2, 1942 respectively, from the Federal Communications Commission, which consist of two sheets.

Intercept #19311 contains a transmission in five-letter groups by a radio station using the call letters JND located at Osaka, Japan to radio station SDQ located at Motala, Sweden. This transmission appears to be a Sweden government code as designated by the salutation. It contains a digit preamble and repeats the first and last five-letter groups which is characteristic of the Sweden diplomatic code. Because of no repetitions and from a frequency distribution consideration it appears this is an enciphered message but since the necessary code books are not available in the Laboratory a decode was not effected.

Intercept #20279 contains a transmission in five-letter groups by radio station JND located at Osaka, Japan to radio station FXD, located at Paris, France. This transmission appears to be Sweden diplomatic code as it is characteristic of the same. As the necessary code books are not available in the Laboratory no decode was effected.

The original intercepts are being transmitted herewith for the Bureau's files. Photostatic copies are being made and will be retained in the Laboratory's Code and Cipher File.

Respectfully,

E. P. Coffey

Re: Swedish Diplomatic

Reference is made to radio intercept 21688 received in the laboratory from the Federal Communications Commission under date of May 5, 1942 which consists of one sheet.

Radio intercept 21688 contains a transmission in five-letter groups from radio station JNB located at Osaka, Japan to a radio station bearing the call letters SDQ located at Motala, Sweden. This message is characteristic of the Swedish Diplomatic code inasmuch as the first and last five-letter groups are identical, it is initiated with a digit group and there is a lack of repetition. The Swedish Government messages are believed to be an enciphered code. Since the necessary code books are not available in the laboratory no decode was effected.

The original intercept is being transmitted herewith for the Bureau's files. A photostatic copy is being retained in the laboratory's code and cipher file.

Re: ~~British~~ Swedish Diplomatic

Reference is made to Swedish government cables designated in the Laboratory as numbers 21048 through 21087, 19701 through 19705, 19715 through 19717, 19719, 19721 through 19725, 19732, 19733, 19736, 21327 through 21336, 21341 through 21348, 18605 through 18617, 21265, 21266 and 21255 sent and received by RCAC and forwarded to the Bureau by the Censorship in New York. These cables were received in the Laboratory during the dates of April 28, 1942 through May 3, 1942 and consist of 105 sheets.

The cable designated in the Laboratory as 21266 contains a transmission in five-letter groups from Stockholm GHR. ETAT. and is addressed to Citibank New York, and is signed Riksbanken. With the use of Peterson International Code (Third Edition), this message was decoded by Censorship in New York and appears to be a banking report of no particular interest.

Listed below are intercepts containing letter and digit groups as indicated. These intercepts all contain Swedish diplomatic code, as indicated by the addresses. In these transmissions it is noted that each message is initiated with a digit group and the first five-letter group is the same as the last five-letter group. From the lack of repetitions and a frequency distribution consideration these messages appear to be enciphered. As the necessary code books are not available in the Laboratory, no decodes were effected.

Re: Miscellaneous Radio Intercepts

Dear Sir:

In accordance with the request as stated in your letter of April 3, 1942 there is being transmitted herewith a photostatic copy of radio intercept #56. The original intercept is being retained in the Bureau's files, a photostatic copy of same having been prepared for the laboratory's code and cipher file.

For your information, the original intercept, #56, is being retained in the Bureau under the above-captioned file and a copy of same is being included in the new laboratory file entitled, Swedish Diplomatic, Bureau File #65-41041.

Very truly yours,

Attention: Technical Laboratory Re: GENERAL MISCELLANEOUS
RADIO INTERCEPTS

Dear Sir:

I wish to advise you that on March 18, 1942 Intercept #56 described below was received in this office for cryptographic examination from the Federal Communications Commission's Monitoring Station in Portland.

	Monitor	Date	Freq. in Kcs.
56	Portland	3-16-42	13885

Intercept #56 is a copy of traffic from JNA in Osaka to Vichy on a frequency of 13885 Kcs. Radio Station JNA is assigned a frequency of 8980 Kcs. whereas 13880 Kcs. is that assigned to JNB in Osaka. Nevertheless, the transmission appears to be perfectly legitimate. Intercept #56 contains the end of a message in five digit groups from which the address is missing and a very fragmentary message in five letter Swedish Government Code.

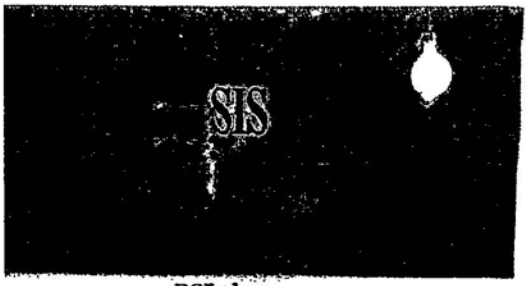

Intercept #56 is being transmitted herewith for inclusion in the Laboratory's Code and Cipher File. It is requested that the Portland Office be furnished a photostatic copy.

Very truly yours,

RE: GERMAN ACTIVITIES - CODE MESSAGE
FROM SWEDISH LEGATION IN MEXICO CITY

Reference is made to your memorandum dated March 19, 1942, titled as above, with which you transmitted to the Bureau for examination by the Technical Laboratory two photographs of a coded message sent to the Swedish Government, Stockholm, via RCA by the Swedish Minister at Mexico City.

For your information, the following excerpt is from the report submitted by the Technical Laboratory following its cryptographic examination:

> There is contained on specimen Q1 a lengthy message in five-digit groups addressed to "CABINET STOCKHOLM" and signed "ARFWEDSON." An examination of the aforementioned message revealed a considerable number of group repetitions which would indicate that the code has not been enciphered. From one point of view, this fact would argue against the supposed importance of the message inasmuch as valuable or important communications are usually transmitted in enciphered code. However, it is possible that encipherment devices were not available because of war-time conditions.
>
> Representative groups of the message contained on Q1 were compared with code books of this type available in the Laboratory but nothing of interest was developed. The possibility is suggested that this message may be in a dictionary code. An examination was conducted from this point of view by comparing representative groups of the instant message against several dictionaries likely to be employed for this purpose. Nothing of significance was developed in this regard.

Re: German Activities
Code Message from Swedish
Legation in Mexico City

Specimen Q1, listed below, transmitted to the Bureau by SIS #9 with a letter dated March 19, 1942 was received in the Technical Laboratory from Supervisor Lawrence on April 3, 1942 for examination in the above-entitled case.

Q1 Two photographs of a coded message sent to the Swedish Government, Stockholm, via RCA, by the Swedish Minister, Mexico City, which message begins "32 26891 48067 42609 12856".

There is contained on specimen Q1 a lengthy message in five-digit groups addressed to "CABINET STOCKHOLM" and signed "ARFWEDSON". An examination of the aforementioned message revealed a considerable number of group repetitions which would indicate that the code has not been enciphered. From one point of view, this fact would argue against the supposed importance of the message inasmuch as valuable or important communications are usually transmitted in enciphered code. However, it is possible that encipherment devices were not available because of war-time conditions.

Representative groups of the message contained on Q1 were compared with code books of this type available in the Laboratory but nothing of interest was developed. The possibility is suggested that this message may be in a dictionary code. An examination was conducted from this point of view by comparing representative groups of the instant message against several dictionaries likely to be employed for this purpose. Nothing of significance was developed in this regard.

The request of SIS #9 that he be promptly advised of the results of this examination is respectfully brought to your attention. In this regard, you are advised that no direct reply has been prepared for the attention of SIS #9, the instant memorandum being the only report on specimen Q1 on the above-entitled case.

RECORDED 65-41041-1

One photographic copy of the original two submitted is being maintained in the files of the Laboratory; the other photographic copy will be included in the Laboratory's Code and Cipher File for future reference purposes.

Re: GERMAN ACTIVITIES
Code Message from Swedish
Legation in Mexico City

The Swedish Legation in Mexico City is now in charge of the affairs of the defunct German Legation. On March 17, 1942, at 10:30 a.m. a lengthy code message was sent by the Swedish Minister to the Swedish Government at Stockholm. This message was cleared through RCA, New York, at 1:05 p.m. and, of course, may be in the hands of the Censors at New York. Two photographs of this five-letter code message are being transmitted herewith, with the request that efforts be made to decipher same and that the writer be advised immediately the results of the laboratory examination of this message.

[redacted] is cooperating with the writer and furnished him with the original of this message. Consequently, I desire to convey to [redacted] as promptly as possible the information as to whether or not we are able to decode this message. b7D

This is the first time that the Swedish Legation has sent a message of this length since the declaration of War, consequently I am constrained to believe that it concerns the German Government.

Re: SWEDISH CONSULATE AT SAN FRANCISCO
ESPIONAGE - SW

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 329 to 334, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish government at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter boaring the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers - .

MEMORANDUM FOR MR. COFFEY

Re: SWEDISH DIPLOMATIC GROUP

This is to represent a summary of the cases reported on during the period December 1, 1942 through January 5, 1943 in connection with the above-entitled case.

During this period there were received for examination in the Laboratory 544 radio and cable intercepts from Censorship in New York, the Federal Communications Commission, and the Washington Field Office. Messages were transmitted between the following points: Cabinet Stockholm; Swedel, New York; Svensk, Washington; Legation Suecia, Havana; Legasueca, Mexico; Legation Suede, Rio de Janeiro; and Swedish Consul General, Montreal.

Messages, bearing Laboratory numbers ranging from 100833 to 101728 and 2143 to 11417, are characteristic of the Swedish Diplomatic Group inasmuch as all of the messages are transmitted in five-letter groups, contain a preamble in the form of a digit group which appears to be the serial number of the message, and the first and last five-letter groups are identical. It is believed that these messages are machine enciphered. The necessary machine is not available in the Laboratory, and no decipherments were effected. Continued efforts are being made to effect a solution in connection with the above-entitled case, and in the event of any future developments your office will be advised.

The original intercepts are being retained in the Laboratory's Code and Cipher File.

Respectfully,

W. G. Blackburn

ESPIONAGE (SW)

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 340 to 347, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish government at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers - .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

SYNOPSIS OF FACTS: Dr. ARNOLD O. LARSON of Minneapolis advises Special Agent WALFRED PETERSON, formerly of Minneapolis and presently stationed at Grand Rapids, is a close friend of Subject and should be in a position to give definite information as to his present attitude.

- - P - -

REFERENCE: Report of Special Agent EDWARD N. NOTESTEEN, St. Paul, 10-14-42

DETAILS: AT MINNEAPOLIS, MINNESOTA.

DR. ARNOLD O. LARSON, 838 LaSalle Building, Minneapolis, Minnesota, advised that during the Christmas holidays WALFRED PETERSON, who was reported to be a Special Agent at the Grand Rapids Field Office, and who is originally from Minneapolis, was a close personal friend of the Subject and would undoubtedly be in a position to give definite information as to the Subject's political attitude.

Dr. LARSON further advised that Miss LUNDSTROM, employed by the Subject, had been contacted discreetly; that she resides at 2219 - 26th Avenue South in Minneapolis; and that her telephone number is DRexel 0136.

He further stated that from conversation with Miss LUNDSTROM, it would appear that VIOLA MAE AKRON is not employed in the consulor offices. Due to Dr. LARSON'S

friendship with the Subject and connection with Swedish groups in Minneapolis, no direct inquiry was made.

For the information of the Grand Rapids Office in the interview with Special Agent WALFRID PETERSON, a copy of Bureau letter dated October 2, 1942, and copies of the reports of Special Agent EDWARD N. NOTESTEEN dated October 7, 1942 and October 14, 1942 at Saint Paul, are enclosed herewith. It is noted that in addition to the above references the Washington Field Division on October 1, 1942, directed a mimeographed letter to the Bureau setting out the names of employees of the Swedish government in this country, which list included the name of VIOLA MAE AKRON of Chisholm, Minnesota, who was employed as a stenographer in the Swedish Consulate in Minneapolis, Minnesota, with residence at 5141 Penn Avenue North, Minneapolis, Minnesota.

. AT GRAND RAPIDS, will interview Special Agent WALFRED PETERSON for any information he may have concerning the Subject's attitude in the present world conflict. Special Agent PETERSON should be advised that this inquiry is strictly confidential. He should also be questioned concerning his knowledge of or acquaintance with Miss LUNDSTROM, an employee at the Consulate and VIOLA MAE AKRON, who is reported to be an employee of same.

SAINT PAUL FIELD DIVISION

On completion of the Grand Rapids lead, will make arrangements for personal contact with Miss. LUNDSTROM, employee of the Swedish Consulate at Minneapolis, Minnesota.

Re: SWEDISH CONSULATE AT SAN FRANCISCO
ESPIONAGE - (SW)

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 360 to 377, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish government in San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers -.

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

DEFERRED RECORDING

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

TITLE	CHARACTER OF CASE
(1) CARL FREDRIK HELLSTROM, Swedish Vice Consul, Minneapolis, Minnesota	ESPIONAGE (SW)

SYNOPSIS OF FACTS: The writer, Special Agent WALFRID H. PETERSON, reports the Subject a personal friend and is not known to have any pro-Nazi sympathies. Activities of the Subject set forth which disclose sympathy for the Democracies. Activities and expressions limited due to official position of Subject as Consul for neutral nation. Attitude of Subject never questioned. Subject's associates and personal friends largely among old American families in Minneapolis. Other employees of Consulate set forth. Suggested leads indicated.

Swedish Art, Literature and Science, and American Scandinavian Foundation Minnesota Chapter, as well as in connection with visits of the Swedish Crown Prince in 1938, and the visits of Swedish artists, scholars and lecturers who came to Minnesota from time to time. Also attended the All Swedish Congress at Chicago with the Subject in 1940 where the writer first became acquainted with ERIK DAHLMAN, First Secretary of the Swedish Legation, Washington, D.C. The writer is also well acquainted with ANITA HELLSTROM, wife of the Subject.

Subject and wife prominent in Minneapolis society and their most intimate friends are the old American "first" families in Minneapolis. Subject is a collector of paintings and art and is especially interested in music and in the Minneapolis Symphony Orchestra.

Prior to entering the Foreign Service as a career diplomat, the Subject was Captain in the Swedish Army. He also served as Advisory Officer on the side of the "Whites" in the Finnish War of Independence and has been decorated with the Order of the White Rose by the Finnish Government in recognition of these services.

In keeping with the expressed foreign policy of Sweden in the present conflict, Subject has tried to maintain a neutral point of view in his official utterances. During the writer's many contacts socially and otherwise with the Subject, he has never heard the Subject make any statements which in any way indicated sympathy for Nazism. In 1942 when the writer was General Chairman of the Swedish Day celebration in Minneapolis, attended by upwards of 50,000 people, the Subject was largely instrumental in shaping the program for the occasion around the theme of "Scandinavian Unity for Democracies." The Subject arranged for greetings from all of the Scandinavian Ministers in Washington expressing their sentiments, and made personal but unsuccessful efforts, through Swedish Minister VOLLMAR BOSTROM, to secure WILLIAM BATT of the War Production Board as speaker.

The first meeting of the Minnesota Committee of Wings for Norway drive was held at the Subject's Consulate Offices in Minneapolis on April 19, 1942. This drive was headed by the author and poet CARL SANDBURG of Chicago, National Chairman, who called the meeting and who was represented by MR. TAGE PALM, employed by the National Broadcasting Company, New York. The National Vice-President was ELSA BRANDSTROM ULICH, who traveled about the country speaking for the drive. She resides in Cambridge, Massachusetts, and is the Swedish wife of Professor ULICH at Harvard, who is reported to be a German political refugee. The purpose of this drive was to raise funds among Swedish Americans to be turned over to the United States Treasurer under the Lend-Lease Program for the purchase of training planes for Norwegian flyers training in Camp Little Norway, Canada. The drive was authorized by the State Department and was personally endorsed by DONALD NELSON.

The Subject at that time stated that although from an official point of view his participation might be construed as undiplomatic, he was so

interested personally in the purpose of this drive, mainly to demonstrate the sympathy of Swedish Americans for Norway and her cause, that he was willing to assume the responsibility of holding the first meeting at the Consulate. Subject also expressed the idea that the drive would have good effect in Sweden because it would demonstrate to the people there that Swedish Americans were sympathetic and concerned over the Norwegian people.

When at the next Swedish Day celebration in June, 1942, the committee decided to give surplus proceeds from this celebration to the Wings for Norway drive, the Subject then discussed with the writer the position of the Swedish Minister VOLLMAR BOSTROM, Washington, D.C., who was coming as the main speaker. The Subject stated that BOSTROM might be placed in an embarrassing position diplomatically in appearing at a function where the benefit was to go to a belligerent. However, the Subject made no effort to change the arrangements and indicated that the question was raised only because of his official capacity. Subject was responsible for the coming of Minister BOSTROM to Minneapolis to address this gathering and was his official host while in Minneapolis.

An illustration of the Subject's attitude may be gathered from the fact that he has been considerably wrought-up and agitated over certain articles written by a Professor SVERRE NORBORG, University of Minnesota, appearing in the Norwegian American Press, in which NORBORG accused Sweden and its government of playing into the hands of Germany. The Subject discussed this question with the writer on many occasions, pointing out what he termed the false premises on which NORBORG's articles were based and stating in general that Sweden's future lies with the Democracies. On numerous occasions he privately pointed out to the writer the overwhelming sentiment in Sweden for the United Nations and the utterly foreign system of Nazism as regards to the Swedish tradition.

Subject was instrumental in bringing THEODOR BROCH, former mayor of Narvik, Norway and press representative of the Royal Norwegian Embassy, as speaker at a Swedish Society meeting in Minneapolis about a year ago, an organization in which the writer was also an officer. BROCH, presently an official with the Norwegian Government in London, was touring the United States, describing and showing pictures of the war devastation in Norway resulting from Nazi conquest and rule. BROCH's address at that time consisted of denunciation of Nazism and an appeal for support of democracy and freedom.

The writer also believes that the Subject cooperated with news commentator ELMER W. PETERSON in preparation of recorded short wave broadcasts to Scandinavia under the auspices of what is now the O.W.I.

PETERSON was formerly Associated Press correspondent in Scandinavia and Europe and did radio broadcasting in Minneapolis until about June, 1942, when he went to New York to take charge of the short wave broadcasts to Scandinavia. These broadcasts, in which the writer to a limited extent assisted PETERSON in writing, recording and translating, were dramatized, and designed to carry

the message to the people in Scandinavia that Scandinavian Americans of all classes were wholeheartedly behind the war effort for the preservation of democracy. PETERSON stated to the writer that the Swedish Consulate in Minneapolis would also help him with any translation of material to further these broadcasts. The writer believes that ELMER W. PETERSON, who was the guest of the Subject and especially informed on Sweden and Scandinavia, discussed political topics in detail with the Subject in connection with his work as news commentator in Minneapolis and would, therefore, be in position to furnish information regarding Subject's attitude. It is left to the discretion of the office of origin as to whether ELMER W. PETERSON should be interviewed in New York. He can be located through the National Broadcasting Company.

The writer is personally acquainted with PETERSON and believes he can be safely contacted for confidential information. PETERSON was born in Duluth, Minnesota, of Swedish parents, is about forty-five years of age and single. He spent about ten years in Europe up to 1941 as correspondent and was in Scandinavia at the time of the German invasion in April, 1940. The writer believes that PETERSON has had considerable contact with other Swedish consular officials in connection with his present work on short wave broadcasts to Scandinavia.

At no time has any one of the mutual friends of the writer and the Subject indicated the Subject has ever had any sympathy for Nazism.

ANITA HELLSTROM, wife of the Subject and with whom the writer is also well acquainted, is a daughter of a former high ranking Swedish officer. She has been very active in the American Red Cross and Bundles for Britain work and is now President of the Swedish Institute Chapter of the Red Cross, Minneapolis. She has been instrumental in raising funds for the American Red Cross for Relief of Norwegian and Finnish Refugee Children in Sweden. At no time has she indicated any pro-Nazi sympathies.

The writer has also for many years known ELSIE LUNDSTROM, the Secretary in the Consulate in Minneapolis. She was a former pupil of the writer's wife and was recommended for the position by her. The loyalty of MISS LUNDSTROM, or that of her family, has never been questioned. It is believed that she would be a reliable informant although her experience is somewhat limited, the present position being her first one.

In addition, the Consulate Staff consists of MR. GOSTA ELOWSON, Chancellor, and JUDITH KLARSTROM, stenographer. The writer has never heard of a VIOLA MAE AKRON, but the Subject recently stated that he had employed a Finnish girl as addition to his staff but her name was not mentioned.

MR. ELOWSON, who is also a personal friend of the writer, has expressed decided hatred for Nazism on several occasions.

The Consulate offices are located at 1777 Colfax Avenue, South, Minneapolis, which also serves as the home of the Subject and his wife. They have no children.

(Grand Rapids file 65-324)

The writer desires that all information furnished in this case or related cases be treated in the utmost confidence, and expresses a willingness to utilize all personal contacts and sources of information to aid in the general inquiry and especially to contribute his knowledge of the Swedish language and his knowledge of individuals who may be developed into confidential informants.

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeated message rate is charged in addition. Unless otherwise indicated on its face, this is an unrepeated message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the unrepeated-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines;

2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one per cent of the amount by which such valuation shall exceed five thousand dollars.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.

4. Except as otherwise indicated in connection with the listing of individual places in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: In cities or towns of 5,000 or more inhabitants where the Company has been established, as shown by the filed tariffs of the Company, is not operated through the agency of a railroad company, within two miles of any open main or branch office of the Company; in cities or towns of 5,000 or more inhabitants where, as shown by the filed-tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants in which an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits so specified the Company does not undertake to make delivery, but will endeavor to arrange for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is not collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.

5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in the case of any message except an intrastate message in Texas where the claim is not presented in writing to the Company within sixty days after the message is filed with the Company for transmission, and in the case of an intrastate message in Texas the Company will not be liable for damages or statutory penalties where the claim is not presented in writing to the Company within ninety-five days after the cause of action, if any, shall have accrued; provided, however, that neither of these conditions shall apply to claims for damages or overcharges within the purview of Section 415 of the Communications Act of 1934.

7. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

8. Special terms governing the transmission of messages according to their classes, as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.

9. No employee of the Company is authorized to vary the foregoing.

Re: SWEDISH COUNTER ESPIONAGE ACTIVITIES

Dear Sir: [redacted]ING

Enclosed are copies of telegraphic messages which have been assigned our numbers 462 to 494, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish govt. at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers --

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

Re: SWEDISH CONSULATE AT SAN FRANCISCO
ESPIONAGE - SW

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 329 to 334, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish government at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter boaring the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers - .

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

MEMORANDUM FOR MR. COFFEY

Re: SWEDISH DIPLOMATIC GROUP

This is to represent a summary of the cases reported on during the period December 1, 1942 through January 5, 1943 in connection with the above-entitled case.

During this period there were received for examination in the Laboratory 544 radio and cable intercepts from Censorship in New York, the Federal Communications Commission, and the Washington Field Office. Messages were transmitted between the following points: Cabinet Stockholm; Swedel, New York; Svensk, Washington; Legation Suecia, Havana; Legasueca, Mexico; Legation Suede, Rio de Janeiro; and Swedish Consul General, Montreal.

Messages, bearing Laboratory numbers ranging from 100833 to 101728 and 2143 to 11417, are characteristic of the Swedish Diplomatic Group inasmuch as all of the messages are transmitted in five-letter groups, contain a preamble in the form of a digit group which appears to be the serial number of the message, and the first and last five-letter groups are identical. It is believed that these messages are machine enciphered. The necessary machine is not available in the Laboratory, and no decipherments were effected. Continued efforts are being made to effect a solution in connection with the above-entitled case, and in the event of any future developments your office will be advised.

The original intercepts are being retained in the Laboratory's Code and Cipher File.

Respectfully,

W. G. Blackburn

SYNOPSIS OF FACTS: Dr. ARNOLD O. LARSON of Minneapolis advises Special Agent WALFRED PETERSON, formerly of Minneapolis and presently stationed at Grand Rapids, is a close friend of Subject and should be in a position to give definite information as to his present attitude.

- - P - -

REFERENCE: Report of Special Agent EDWARD N. NOTESTEEN, St. Paul, 10-14-42

DETAILS: AT MINNEAPOLIS, MINNESOTA.

DR. ARNOLD O. LARSON, 838 LaSalle Building, Minneapolis, Minnesota, advised that during the Christmas holidays WALFRED PETERSON, who was reported to be a Special Agent at the Grand Rapids Field Office, and who is originally from Minneapolis, was a close personal friend of the Subject and would undoubtedly be in a position to give definite information as to the Subject's political attitude.

Dr. LARSON further advised that Miss LUNDSTROM, employed by the Subject, had been contacted discreetly; that she resides at 2219 - 26th Avenue South in Minneapolis; and that her telephone number is DRexel 0136.

He further stated that from conversation with Miss LUNDSTROM, it would appear that VIOLA MAE AKRON is not employed in the consulor offices. Due to Dr. LARSON'S

friendship with the Subject and connection with Swedish groups in Minneapolis, no direct inquiry was made.

For the information of the Grand Rapids Office in the interview with Special Agent WALFRID PETERSON, a copy of Bureau letter dated October 2, 1942, and copies of the reports of Special Agent EDWARD N. NOTESTEEN dated October 7, 1942 and October 14, 1942 at Saint Paul, are enclosed herewith. It is noted that in addition to the above references the Washington Field Division on October 1, 1942, directed a mimeographed letter to the Bureau setting out the names of employees of the Swedish government in this country, which list included the name of VIOLA MAE AKRON of Chisholm, Minnesota, who was employed as a stenographer in the Swedish Consulate in Minneapolis, Minnesota, with residence at 5141 Penn Avenue North, Minneapolis, Minnesota.

GRAND RAPILS FIELD DIVISION

. AT GRAND RAPIDS, will interview Special Agent WALFRED PETERSON for any information he may have concerning the Subject's attitude in the present world conflict. Special Agent PETERSON should be advised that this inquiry is strictly confidential. He should also be questioned concerning his knowledge of or acquaintance with Miss LUNDSTROM, an employee at the Consulate and VIOLA MAE AKRON, who is reported to be an employee of same.

SAINT PAUL FIELD DIVISION

On completion of the Grand Rapids lead, will make arrangements for personal contact with Miss. LUNDSTROM, employee of the Swedish Consulate at Minneapolis, Minnesota.

Re: SWEDISH CONSULATE AT SAN FRANCISCO
ESPIONAGE - (SW)

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 360 to 377, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish government in San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers -.

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

DEFERRED RECORDING

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

TITLE	CHARACTER OF CASE
(1) CARL FREDRIK HELLSTROM, Swedish Vice Consul, Minneapolis, Minnesota	ESPIONAGE (SW)

SYNOPSIS OF FACTS: The writer, Special Agent WALFRID H. PETERSON, reports the Subject a personal friend and is not known to have any pro-Nazi sympathies. Activities of the Subject set forth which disclose sympathy for the Democracies. Activities and expressions limited due to official position of Subject as Consul for neutral nation. Attitude of Subject never questioned. Subject's associates and personal friends largely among old American families in Minneapolis. Other employees of Consulate set forth. Suggested leads indicated.

Swedish Art, Literature and Science, and American Scandinavian Foundation Minnesota Chapter, as well as in connection with visits of the Swedish Crown Prince in 1938, and the visits of Swedish artists, scholars and lecturers who came to Minnesota from time to time. Also attended the All Swedish Congress at Chicago with the Subject in 1940 where the writer first became acquainted with ERIK DAHLMAN, First Secretary of the Swedish Legation, Washington, D.C. The writer is also well acquainted with ANITA HELLSTROM, wife of the Subject.

Subject and wife prominent in Minneapolis society and their most intimate friends are the old American "first" families in Minneapolis. Subject is a collector of paintings and art and is especially interested in music and in the Minneapolis Symphony Orchestra.

Prior to entering the Foreign Service as a career diplomat, the Subject was Captain in the Swedish Army. He also served as Advisory Officer on the side of the "Whites" in the Finnish War of Independence and has been decorated with the Order of the White Rose by the Finnish Government in recognition of these services.

In keeping with the expressed foreign policy of Sweden in the present conflict, Subject has tried to maintain a neutral point of view in his official utterances. During the writer's many contacts socially and otherwise with the Subject, he has never heard the Subject make any statements which in any way indicated sympathy for Nazism. In 1942 when the writer was General Chairman of the Swedish Day celebration in Minneapolis, attended by upwards of 50,000 people, the Subject was largely instrumental in shaping the program for the occasion around the theme of "Scandinavian Unity for Democracies." The Subject arranged for greetings from all of the Scandinavian Ministers in Washington expressing their sentiments, and made personal but unsuccessful efforts, through Swedish Minister VOLLMAR BOSTROM, to secure WILLIAM BATT of the War Production Board as speaker.

The first meeting of the Minnesota Committee of Wings for Norway drive was held at the Subject's Consulate Offices in Minneapolis on April 19, 1942. This drive was headed by the author and poet CARL SANDBURG of Chicago, National Chairman, who called the meeting and who was represented by MR. TAGE PALM, employed by the National Broadcasting Company, New York. The National Vice-President was ELSA BRANDSTROM ULICH, who traveled about the country speaking for the drive. She resides in Cambridge, Massachusetts, and is the Swedish wife of Professor ULICH at Harvard, who is reported to be a German political refugee. The purpose of this drive was to raise funds among Swedish Americans to be turned over to the United States Treasurer under the Lend-Lease Program for the purchase of training planes for Norwegian flyers training in Camp Little Norway, Canada. The drive was authorized by the State Department and was personally endorsed by DONALD NELSON.

The Subject at that time stated that although from an official point of view his participation might be construed as undiplomatic, he was so

interested personally in the purpose of this drive, mainly to demonstrate the sympathy of Swedish Americans for Norway and her cause, that he was willing to assume the responsibility of holding the first meeting at the Consulate. Subject also expressed the idea that the drive would have good effect in Sweden because it would demonstrate to the people there that Swedish Americans were sympathetic and concerned over the Norwegian people.

When at the next Swedish Day celebration in June, 1942, the committee decided to give surplus proceeds from this celebration to the Wings for Norway drive, the Subject then discussed with the writer the position of the Swedish Minister VOLLMAR BOSTROM, Washington, D.C., who was coming as the main speaker. The Subject stated that BOSTROM might be placed in an embarrassing position diplomatically in appearing at a function where the benefit was to go to a belligerent. However, the Subject made no effort to change the arrangements and indicated that the question was raised only because of his official capacity. Subject was responsible for the coming of Minister BOSTROM to Minneapolis to address this gathering and was his official host while in Minneapolis.

An illustration of the Subject's attitude may be gathered from the fact that he has been considerably wrought-up and agitated over certain articles written by a Professor SVERRE NORBORG, University of Minnesota, appearing in the Norwegian American Press, in which NORBORG accused Sweden and its government of playing into the hands of Germany. The Subject discussed this question with the writer on many occasions, pointing out what he termed the false premises on which NORBORG's articles were based and stating in general that Sweden's future lies with the Democracies. On numerous occasions he privately pointed out to the writer the overwhelming sentiment in Sweden for the United Nations and the utterly foreign system of Nazism as regards to the Swedish tradition.

Subject was instrumental in bringing THEODOR BROCH, former mayor of Narvik, Norway and press representative of the Royal Norwegian Embassy, as speaker at a Swedish Society meeting in Minneapolis about a year ago, an organization in which the writer was also an officer. BROCH, presently an official with the Norwegian Government in London, was touring the United States, describing and showing pictures of the war devastation in Norway resulting from Nazi conquest and rule. BROCH's address at that time consisted of denunciation of Nazism and an appeal for support of democracy and freedom.

The writer also believes that the Subject cooperated with news commentator ELMER W. PETERSON in preparation of recorded short wave broadcasts to Scandinavia under the auspices of what is now the O.W.I.

PETERSON was formerly Associated Press correspondent in Scandinavia and Europe and did radio broadcasting in Minneapolis until about June, 1942, when he went to New York to take charge of the short wave broadcasts to Scandinavia. These broadcasts, in which the writer to a limited extent assisted PETERSON in writing, recording and translating, were dramatized, and designed to carry

the message to the people in Scandinavia that Scandinavian Americans of all classes were wholeheartedly behind the war effort for the preservation of democracy. PETERSON stated to the writer that the Swedish Consulate in Minneapolis would also help him with any translation of material to further these broadcasts. The writer believes that ELMER W. PETERSON, who was the guest of the Subject and especially informed on Sweden and Scandinavia, discussed political topics in detail with the Subject in connection with his work as news commentator in Minneapolis and would, therefore, be in position to furnish information regarding Subject's attitude. It is left to the discretion of the office of origin as to whether ELMER W. PETERSON should be interviewed in New York. He can be located through the National Broadcasting Company.

The writer is personally acquainted with PETERSON and believes he can be safely contacted for confidential information. PETERSON was born in Duluth, Minnesota, of Swedish parents, is about forty-five years of age and single. He spent about ten years in Europe up to 1941 as correspondent and was in Scandinavia at the time of the German invasion in April, 1940. The writer believes that PETERSON has had considerable contact with other Swedish consular officials in connection with his present work on short wave broadcasts to Scandinavia.

At no time has any one of the mutual friends of the writer and the Subject indicated the Subject has ever had any sympathy for Nazism.

ANITA HELLSTROM, wife of the Subject and with whom the writer is also well acquainted, is a daughter of a former high ranking Swedish officer. She has been very active in the American Red Cross and Bundles for Britain work and is now President of the Swedish Institute Chapter of the Red Cross, Minneapolis. She has been instrumental in raising funds for the American Red Cross for Relief of Norwegian and Finnish Refugee Children in Sweden. At no time has she indicated any pro-Nazi sympathies.

The writer has also for many years known ELSIE LUNDSTROM, the Secretary in the Consulate in Minneapolis. She was a former pupil of the writer's wife and was recommended for the position by her. The loyalty of MISS LUNDSTROM, or that of her family, has never been questioned. It is believed that she would be a reliable informant although her experience is somewhat limited, the present position being her first one.

In addition, the Consulate Staff consists of MR. GOSTA ELOWSON, Chancellor, and JUDITH KLARSTROM, stenographer. The writer has never heard of a VIOLA MAE AKRON, but the Subject recently stated that he had employed a Finnish girl as addition to his staff but her name was not mentioned.

MR. ELOWSON, who is also a personal friend of the writer, has expressed decided hatred for Nazism on several occasions.

The Consulate offices are located at 1777 Colfax Avenue, South, Minneapolis, which also serves as the home of the Subject and his wife. They have no children.

(Grand Rapids file 65-324)

The writer desires that all information furnished in this case or related cases be treated in the utmost confidence, and expresses a willingness to utilize all personal contacts and sources of information to aid in the general inquiry and especially to contribute his knowledge of the Swedish language and his knowledge of individuals who may be developed into confidential informants.

Re: SWEDISH CONSULATE AT SAN FRANCISCO

Dear Sir:

DEFERRED RECORD

Enclosed are copies of telegraphic messages which have been assigned our numbers 438 to 452, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish Government at San Francisco.

With regard to those in code, it is requested tho Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers --

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.

Yours truly,

ALL MESSAGES TAKEN BY THIS COMPANY ARE SUBJECT TO THE FOLLOWING TERMS:

To guard against mistakes or delays, the sender of a message should order it repeated, that is, telegraphed back to the originating office for comparison. For this, one-half the unrepeated message rate is charged in addition. Unless otherwise indicated on its face, this is an unrepeated message and paid for as such, in consideration whereof it is agreed between the sender of the message and this Company as follows:

1. The Company shall not be liable for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the unrepeated-message rate beyond the sum of five hundred dollars; nor for mistakes or delays in the transmission or delivery, or for non-delivery, of any message received for transmission at the repeated-message rate beyond the sum of five thousand dollars, unless specially valued; nor in any case for delays arising from unavoidable interruption in the working of its lines;

2. In any event the Company shall not be liable for damages for mistakes or delays in the transmission or delivery, or for the non-delivery, of any message, whether caused by the negligence of its servants or otherwise, beyond the actual loss, not exceeding in any event the sum of five thousand dollars, at which amount the sender of each message represents that the message is valued, unless a greater value is stated in writing by the sender thereof at the time the message is tendered for transmission, and unless the repeated-message rate is paid or agreed to be paid, and an additional charge equal to one-tenth of one per cent of the amount by which such valuation shall exceed five thousand dollars.

3. The Company is hereby made the agent of the sender, without liability, to forward this message over the lines of any other company when necessary to reach its destination.

4. Except as otherwise indicated in connection with the listing of individual places in the filed tariffs of the Company, the amount paid for the transmission of a domestic telegram or an incoming cable or radio message covers its delivery within the following limits: In cities or towns of 5,000 or more inhabitants where the Company has been authorized, as shown by the filed tariffs of the Company, to make delivery, within one mile of the telegraph office; in cities or towns of 5,000 or more inhabitants where, as shown by the filed tariffs of the Company, the telegraph service is performed through the agency of a railroad company, within one mile of the telegraph office; in cities or towns of less than 5,000 inhabitants in which an office of the Company is located, within one-half mile of the telegraph office. Beyond the limits so prescribed the Company does not undertake to make delivery, but will endeavor to arrange for delivery as the agent of the sender, with the understanding that the sender authorizes the collection of any additional charge from the addressee and agrees to pay such additional charge if it is not collected from the addressee. There will be no additional charge for deliveries made by telephone within the corporate limits of any city or town in which an office of the Company is located.

5. No responsibility attaches to this Company concerning messages until the same are accepted at one of its transmitting offices; and if a message is sent to such office by one of the Company's messengers, he acts for that purpose as the agent of the sender.

6. The Company will not be liable for damages or statutory penalties in the case of any message except an intrastate message in Texas where the claim is not presented in writing to the Company within sixty days after the message is filed with the Company for transmission, and in the case of an intrastate message in Texas the Company will not be liable for damages or statutory penalties where the claim is not presented in writing to the Company within ninety-five days after the cause of action, if any, shall have accrued; provided, however, that neither of these conditions shall apply to claims for damages or overcharges within the purview of Section 415 of the Communications Act of 1934.

7. It is agreed that in any action by the Company to recover the tolls for any message or messages the prompt and correct transmission and delivery thereof shall be presumed, subject to rebuttal by competent evidence.

8. Special terms governing the transmission of messages according to their classes, as enumerated below, shall apply to messages in each of such respective classes in addition to all the foregoing terms.

9. No employee of the Company is authorized to vary the foregoing.

OFFICE MEMORANDUM - UNITED STATES GOVERNMENT

TO : MR. LADD

DATE: 6/3/46

FROM : E. A. Fitch

SUBJECT: Norwegian and Swedish Codes

ALL INFORMATION CONTAINED
HEREIN IS UNCLASSIFIED
DATE 11-10-2010 BY 60322 UCLP/PLJ/JN

Captain Carl F. Espe of the Special Services Branch of the Navy Department requested the assistance of this Bureau in obtaining any material on the Norwegian and Swedish codes. He stated that there are two types of Norwegian material and they are: 1. cypher material and, 2. encyphered code.

According to Captain Espe this machine is of great importance and is of the Hagelin type. The Navy desires a description of this machine, key lists, rules for use, repair data, work sheets or any similar data. They desire that in the event the machine is used to encypher a code, a photograph of the code or any Norwegian code that may be had be obtained. Captain Espe stated that the Norwegian holders of these devices are to be found in London, Moscow, Buenos Aires, The Hague, Montreal, Paris, Rio de Janeiro and Washington, D. C.

Captain Espe also stated that the Navy was interested in a description, key lists, rules for use, repair data, etc. of the machine used by the Swedish Government. He stated that this information may be obtained at the Swedish Government Cargo Clearance Commission, 630 Fifth Avenue, New York City, which closes over the entire week-end.

Captain Espe requested Agent Doherty to propose this request forthe above information to the officials of this Bureau and ascertain if it would be possible for this Bureau to conduct the appropriate investigation to obtain the requested information. Captain Espe was advised that this matter would be brought to the attention of the Bureau and he would be informed of the Bureau's decision in this matter.

FOREIGN GOVERNMENT MESSAGES File #65-43921

Reference is made to your memorandum to the Bureau dated February 19, 1945 in regard to the above entitled matters.

With reference to the third paragraph of your memorandum you are advised that the Bureau is primarily interested in French Embassy messages and the coverage of this particular traffic, therefore, should be as complete as possible.

With regard to the sixth paragraph of your memorandum, your office should obtain some of the original messages on file in order that they may be examined in the laboratory in light of the statements made to the superintendent of Bonkey Radio by the Army Lieutenant.

With reference to paragraph eight of your memorandum, you are authorized to completely discontinue any coverage on the following foreign governments:

Brazil	Guatemala
Bolivia	Mexico
Chile	Paraguay
Cuba	Peru
Dominican Republic	Sweden
Ecuador	Switzerland

Source A is [redacted] The most important source of information in this report is cable censorship, and the Mexican Government has refused to supply any more intercepts of Swedish Government cables [redacted] who is the source of cable intercepts for this office. The Naval Attaché's office here has advised that in the future, it may be possible to secure these intercepts from the State Department in Washington, in which case they will be used as sources for future reports. It will be noted by the Bureau that an error was made in the referenced report where it was stated that the Quinta Sueca was the Cuernavaca home of RALF JOSEPHSON. In reality, the Quinta Sueca is kind of a club for local Swedes. Translation of Swedish and French cables cited in this report by [redacted]

No. 746

For FF from Wessel. Charles Babb has three PoW SCG-motors for sale; serial number 1504-6; 1050 horsepower; take off 87 octane; 2200 RPM. Reduction 3:2. Carburetors automatic mixture control NAC 12 E 1. Three hydromatic propellers are also available; hub 23E50-87; blades 6139 A-6 with 4B6-4 constant speed controls; also various spare parts. All the material now in Buenos Aires. Exported there in December 1938 by U.A.C. (United Aircraft) for Savoian transatlantic line and are still unpacked. U.A.C. believes they are still in good condition and regards investigation well worth the expense. This investigation can be made through your agent, Georg A. Lurro. Babb stated he has guarantee that export license from Argentina can be obtained. Telegraph if FF or ABA are interested.

Information has been received to the effect that Swedish seamen have available to them at sea code radiotelegrams which are sent by the ships' radio operators. Copies of these code radiotelegrams have been obtained from the M. V. "Sagoland", a Swedish vessel, and a translation from the Swedish is attached for your information.

As will be noted in these radiotelegrams the addresses and addressees are set forth in the ordinary manner, but instead of the text there is set out the code number of the message desired. Many of these messages are reportedly being sent at the present time from Swedish ships in both the Atlantic and the Pacific. It is noted that these code messages are very simple for Swedish seamen to employ and could contain a double meaning and be used for espionage activities. However, no information has come to our attention that they are being used for such purposes.

These data are being passed on to you for your information and any action you may deem necessary.

RE: ~~X~~RADIOTELEGRAMS FROM SWEDISH SHIPS
ESPIONAGE (G)

Dear Sir:

It has been determined that Swedish seamen have available to them at sea code radiotelegrams which are sent by the ships' radio operators. A copy of the same has been obtained by the Philadelphia Field Division from the ~~M/V~~ SAGOLAND, Swedish vessel.

In said telegrams the addresses and addressees are set forth in the ordinary manner but instead of the text, there is set forth the number of the text desired. Many of these messages are being sent at the present time from Swedish ships both in the Atlantic and in the Pacific. In view of the fact that these code messages are very simple for Swedish seamen to employ and could contain a double meaning and be used for espionage activities, a copy of the original Swedish code with translation of same made by the Philadelphia Field Division are being forwarded to the Bureau and to the offices handling ship cases.

RE: SPANIP CASE
COVERAGE OF TRAFFIC
EMANATING FROM CERTAIN
CONSULS IN NEW YORK CITY;
ESPIONAGE - S

Dear Sir:

Reference is made to Bureau letter dated March 3, 1943 concerning a survey recently made in the Laboratory for the period June through August, 1942 concerning traffic available from certain New York Consuls. It is noted that there are indications that no traffic was received from certain Consulates during this three-month period.

From a review of the files of the New York Field Division, there is no indication that the Bureau ever requested that traffic of certain of these Consulates be obtained, and other than the Spanish Consulate, it is not clear what the connection is between the traffic of, for example, the Greek Consulate and the SPANIP CASE. It is noted from a review of the New York files by Bureau letter dated August 31, 1942, under the caption CENSORSHIP, that the Bureau requested that the New York Office cease sending to the Laboratory the cable traffic of the Brazilian Consulate. By Bureau letter of the same date, the Bureau requested that there be furnished the traffic of the Cuban Consulate.

I note that the Laboratory survey indicates that no messages were received at the Laboratory emanating from the Spanish Consulate. This is rather impossible since there has been sent to the Laboratory daily, beginning April 17, 1942, all Spanish diplomatic traffic that could possibly be obtained from the Radio and Cable Censorship at New York City. This, of course, includes the outgoing and incoming traffic of the Spanish Consulate. If no such traffic was received by the Bureau during the three-month period survey, it is possible that there was no traffic emanating from the Spanish Consulate at New York City.

Reference letter is not clear as to whether or not coverage is desired on the domestic traffic of these Consulates. In this connection, I should like to point out that unless a good reason exists for obtaining such coverage, and the New York Office is so advised, no effort will be made along these lines since obtaining such coverage involves considerable difficulty with domestic cable companies.

Re: SWEDISH COUNTER ESPIONAGE ACTIVITIES

Dear Sir:

Enclosed are copies of telegraphic messages which have been assigned our numbers 508 to 518, inclusive. These are in code, a foreign language, or English and are to and/or from, or are related to the activities of representatives of the Swedish Govt. at San Francisco.

With regard to those in code, it is requested the Bureau effect decodes, if possible, and supply this office with two copies thereof on tissue copy paper, numbered to correspond with the attached, and by a Personal and Confidential cover letter bearing the above caption. In the event decodes are impossible, the messages should be retained in the Bureau's files and decodes submitted when effected. The messages attached which are in code, bear our numbers --

DEFERRED RECORDING

With regard to those in a foreign language, it is requested the Bureau furnish this office with translations in the style and manner as requested above in the case of those regarding which decodes can be effected.

With regard to those in English, copies have been made and are being retained in confidential files in this office. The attached copy is for the Bureau's information.
